“Amended”

Rio2 Limited
Condensed Interim Consolidated Financial Statements
Three months ended March 31, 2021 and 2020

Presented in United States dollars

NOTICE TO READER

Rio2 Limited ("Rio2" or the "Company") is re-filing its condensed interim consolidated financial statements for the three months ended March 31, 2021 and 2020 as the following corrections have been made:

- An amendment to the value of Exploration and evaluation assets at March 31, 2021, December 31, 2020 and January 1, 2020. This change originated from a difference in exchange rates upon conversion of the condensed interim consolidated financial statements from Canadian dollar reporting currency to US dollar reporting currency.
- An amendment to Note 9, Exploration and Evalution assets, to correct the effect of exchange rates upon conversion of the condensed interim consolidated financial statements from Canadian dollar reporting currency to US dollar reporting currency.
- An amendment to the Accumulated other comprehensive income balances as at March 31, 2021, December 31, 2020 and January 1, 2020 to correct the impact of the Exploration and evaluation assets conversion from Canadian dollar reporting currency to US dollar reporting currency.
- An amendement to Exchange loss on translation of foreign operations for the three months ended March 31, 2021 and 2020 to correct the impact of the Exploration and evaluation assets conversion from Canadian dollar reporting currency to US dollar reporting currency.
- A change to Note 13, Segmented Information, to reflect the amendment to Exploration and evaluation assets as of March 31, 2021 and December 31, 2020.
- A change to Note 14, Effect of the Change in Presentation Currency, to reflected the amendment to Exploration and evaluation assets as of December 31, 2020 and January 1, 2020, as well as the exchange loss on translation of foreign operations for the three months ended March 31, 2020.
- The inclusion of Note 15, Subsequent Events, to disclose the exercise of warrants that occurred after the original condensed interim consolidated financial statements for the three months ended March 31, 2021 and 2020 were filed.

Other than the changes noted above, the re-filed condensed interim consolidated financial statements for the three months ended March 31, 2021 and 2020 do not contain any changes or amendments.

RIO2 LIMITED
Condensed Interim Consolidated Statements of Financial Position
As at March 31, 2021, December 31, 2020 and January 1, 2020
(Unaudited - Expressed in United States dollars)

1. Nature of Operations and Going Concern

Rio2 Limited is the parent company of a consolidated group. Rio2 is incorporated under the laws of the province of Ontario and its principle business activity is the exploration and development of its flagship Fenix Gold Project in Chile, as well as pursuing additional strategic acquisitions where it can deploy its operational excellence and responsible mining practices to build a multi-asset, multi-jurisdiction, precious metals company.

On July 24, 2018, Rio2 announced that Rio2 Limited and Atacama Pacific Gold Corporation ("Atacama Pacific") completed a transaction by way of a court approved plan of arrangement through which the companies amalgamated as a single entity (the "Arrangement"). The combined company that resulted from the Arrangement continues to operate under the name Rio2 Limited.

The Company trades on the TSX Venture Exchange ("TSXV") under the symbol "RIO", the Bolsa de Valores de Lima ("BVL") under the symbol "RIO" and on the OTCQX® Best Market under the ticker "RIOFF**".**

The Company's registered office is located at Suite 6000, 1 First Canadian Place, 100 King St. West, Toronto, ON, M5X 1E2 and its head office is at The Marine Building, 1000-355 Burrard Street, Vancouver, BC, V6C 2G8.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The Company has no source of revenue. These condensed interim consolidated financial statements were prepared on a "going concern" basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As of March 31, 2021, the Company had a working capital surplus of $3,062,805 (December 31, 2020 – $1,459,649). The Company does not currently hold any revenue-generating properties and thereby continues to incur losses.

The Company incurred a net loss for the three months ended March 31, 2021 of $3,169,604 (three months ended March 31, 2020 – $1,537,255) and negative cash flows from operations of $4,089,634 for the three months ended March 31, 2021 (March 31, 2020 – negative cash flows from operations of $1,841,481). As at March 31, 2021, the Company had an accumulated deficit of $41,429,621 (December 31, 2020 – $38,260,017). The Company's ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and in the meantime, to obtain the necessary financing to repay its liabilities when they become due. External financing will be sought to finance the operations of the Company and enable the Company to continue its efforts towards the exploration and development of its mineral properties. This condition, along with other matters set forth above, indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. These condensed interim consolidated financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Basis of Presentation

Statement of Compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". Certain disclosures included in the annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the IASB have been condensed or omitted. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2020 and the accompanying notes included in those financial statements. For a full description of accounting policies, refer to the audited annual consolidated financial statements of the Company for the year ended December 31, 2020.

These condensed interim consolidated financial statements were approved and authorized for issuance by the Board of Directors of the Company on July 12, 2021.

Basis of Presentation

These financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. In addition, the financial statements have been prepared using the accrual basis of accounting, except for certain cash flow information.

These condensed interim consolidated financial statements are presented in United States dollars.

The accounting policies applied in preparation of these unaudited condensed interim consolidated financial statments are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2020.

Principles of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries as follows:

Name	Location	Ownership by the Company	
		March 31, 2021	December 31, 2020
Fenix Gold Limitada	Chile	100%	100%
Rio2 S.A.C.	Peru	100%	100%
Rio2 Exploraciones S.A.C.	Peru	100%	100%
Lince S.A.	Chile	100%	100%

All material inter-company transactions and balances have been eliminated upon consolidation.

2. Basis of Presentation (continued)

Use of Estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions which affect the reported amount of the Company's assets, liabilities, expenses, and related disclosures. Assumptions and estimates are based on historical experience, expectations, current trends, and other factors that management believes to be relevant at the time at which the Company's financial statements are prepared.

Management reviews, on a regular basis, the Company's accounting policies, assumptions, estimates, and judgements in order to ensure that the financial statements are presented fairly and in accordance with IFRS.

Critical accounting estimates are those that have a significant risk of causing material adjustment and are often applied to matters or outcomes that are inherently uncertain and subject to change. As such, management cautions that future events often vary from forecasts and expectations and that estimates routinely require adjustments. The most significant judgements applying to the Company's financial statements include share-based payment transactions and mineral resource estimate. Key judgements include the timing commencement of commercial production which in turn impacts the realization of input tax inputs.

Use of Judgements

The preparation of financial statements in accordance with IFRS requires management to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's financial statements include acquisition accounting versus business combination, as well as exploration and evaluation assets.

3. Change of Presentation Currency

As a result of the continued advancement of the Fenix Gold Project, the Company decided to change its presentation currency from Canadian dollars to United States dollars effective January 1, 2021. The change in the financial statement presentation currency is considered an accounting policy change and has been accounted for retrospectively. The balance sheets for each period presented have been translated from the related subsidiary's functional currency to the new US dollar presentation currency at the rate of exchange prevailing at the respective balance sheet date except for equity items, which have been translated at accumulated historical rates from the related subsidiary's date of incorporation. The statements of income and comprehensive income were translated at the average exchange rates for the reporting period, or at the exchange rate prevailing at the date of transactions.

(Expressed in United States dollars, unless otherwise stated)

3. Change in Presentation Currency (continued)

During the year ended December 31, 2020, the translation of the Company's subsidiaries that had a United States dollar into the Company's presentation currency of the Canadian dollar gave rise to a translation adjustment which was recorded in Foreign Currency Translation Reserve, a separate component of shareholders' equity. With the retrospective application of the change in presentation currency from the Canadian dollar to the US dollar, the Foreign Currency Translation Reserve related to the translation of US dollar functional currency subsidiaries was eliminated. However, with the retrospective application of the change in presentation currency to the US dollar, the Company's corporate office, which has a Canadian dollar functional currency, resulted in an Accumulated Other Compreshensive Income ("AOCI") balance.

(a) Adjustment to previously reported financial information due to change in presentation currency

For comparative purposes, the consolidated balance sheets as at December 31, 2020 and January 1, 2020 include adjustments to reflect the change in the presentation currency to the US dollar, which is a change in accounting policy. The exchange rates used to translate the amounts previously reported into US dollars at December 31, 2020 were 1.2732 CAD/USD, and at January 1, 2020 were 1.2988 CAD/USD. Refer to note 14(a) for the effects of the translation.

For comparative purposes, the consolidated statement of loss and comprehensive loss for the three months ended March 31, 2019 includes adjustments to reflect the change in the presentation currency to the US dollar, which is a change in accounting policy. The exchange rates used to translate the amounts previously reported into US dollars for the three months ended March 31, 2020 were 1.3449 CAD/USD, which were the average exchange rates for the period. Refer to note 14(b) for the effects of the translation.

(b) Functional currency

The functional currencies of the Company and its subsidiaries, all of which are wholly owned, remained unchanged and were as follows for periods presented.

Name	Functional Currency
Rio2 Limited	Canadian dollar
Fenix Gold Limitada	United States Dollars
Rio2 S.A.C.	United States Dollars
Rio2 Exploraciones S.A.C.	United States Dollars
Lince S.A.	United States Dollars

4. Financial Instruments and Risk Management

The Company's financial instruments consist of cash, short term investments, interest receivable and accounts payable. The carrying values of the Company's financial instruments approximate their fair value due to the short term to maturity.

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks and, when appropriate, takes steps to mitigate such risks. These risks may include credit risk, liquidity risk, and market risk.

Credit Risk

Credit risk is the risk that a party to the Company's financial assets will fail to discharge its obligation causing the Company financial loss. The Company's exposure to credit risk is in its cash. Cash is held in major financial institutions. Accordingly, the Company believes it has no significant credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting its financial obligations associated with its financial liabilities as they fall due. The Company's objective is to ensure that there are sufficient committed financial resources to meet its short-term business requirements for a minimum of twelve months. As of March 31, 2021, the Company has cash totalling $3,535,270 (December 31, 2020 - $2,602,977), short term investments of $46,000 (December 31, 2020 - $831,415) and current liabilities of $1,075,800 (December 31, 2020 - $2,389,246). The current liabilities are accounts payable of $863,660 due on demand (December 31, 2020 - accounts payable of $2,179,508 due on demand), as well as the current portion of a lease liability of $212,140 (December 31, 2020 - $209,738).

The Company has no formal credit facilities at this time and given the Company's current stage of development, it is not expected that such credit facilities would be available to the Company.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of three types of risk: foreign currency risk, interest rate risk, and commodity price risk.

Foreign Currency Risk

Foreign exchange risk is the risk arising from changes in foreign currency fluctuations. The Company operates in more than one country. As a result, a portion of the Company's expenditures, amounts receivable, accounts payable and accruals are denominated in U.S. Dollars, Chilean Pesos and Peruvian Soles and are therefore subject to fluctuation in exchange rates. The Company does not use any derivative instruments to reduce its exposure to fluctuations in foreign currency rates.

Interest Rate Risk

The Company is not exposed to interest rate risk due to the short-term nature of its cash held in a bank account.

(Expressed in United States dollars, unless otherwise stated)

4. Financial Instruments and Risk Management (continued)

Commodity Price Risk

The value of the Company's interests in mineral properties is related to the price of gold and the outlook for this mineral. Mineral prices have historically fluctuated widely and are impacted by numerous factors outside of the Company's control, including, but not limited to: industrial and retail demand, forward sales by producers and speculators, level of worldwide production, short-term changes in supply and demand because of speculators, hedging activities, and certain other factors. The Company is not actively managing its commodity risk.

Other Risks

In December 2019, a novel strain of coronavirus was reported in Wuhan, China. On March 11, 2020, the World Health Organization declared the outbreak to constitute a pandemic. The spread of COVID-19 has severely impacted economies around the globe. In many countries, including Canada, Chile and Peru, businesses have been forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, maintaining minimum distances between people, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in significant unemployment and an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening of certain sectors. Governments and central banks have responded with monetary and fiscal interventions designed to stabilize economic conditions. To date, the Company's operations have not been materially negatively affected by these events, apart from increasing costs, in particular around health and safety and housing field-staff. The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses, remains unclear at this time. It is not possible to reliably estimate the duration of the impact, the severity of the consequences, nor the impact, if any, on the financial position and results of the Company for future periods.

5. Capital Risk Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral property interests and to maintain flexible capital structure for its projects for the benefit of its stakeholders. There have been no changes in the Company's objectives for managing capital or in what it considers capital from the prior year. In the management of capital, the Company includes the following components of shareholders' equity.

		March 31, 2021		December 31, 2020
Share capital	$	100,331,005	$	95,768,037
Reserves		7,860,728		7,376,920
	$	108,191,733	$	103,144,957

(Expressed in United States dollars, unless otherwise stated)

5. Capital Risk Management (continued)

The properties in which the Company currently has an interest are in the exploration and development stage; as such the Company is dependent on external financing to fund its activities. In order to carry out any planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. To maintain or adjust the capital structure, the Company may be required to issue new shares or debt or acquire or dispose of assets. The Company will continue to assess new properties and seek to acquire additional properties, if it feels there is sufficient geological or economic potential, and if it has adequate financial resources to do so. The Company is not subject to externally imposed capital requirements. The Company's overall capital management strategy remains unchanged from the prior year.

6. Lince Acquisition

On April 15, 2020, Rio2 announced that it completed the strategic acquisition of Compañía Minera Paso San Francisco S.A. ("MPSF"). MPSF owned strategic mining infrastructure and facilities located adjacent to Rio2's Fenix Gold Project in Chile.

MPSF was acquired by Rio2 for $1.5 million cash from Inversiones Alxar S.A. ("Alxar"), a subsidiary of Empresas Copec S.A., a large Chilean industrial conglomerate. Subsequent to the acquisition of MPSF, the name of MPSF was changed to Lince S.A. ("Lince").

The Company accounted for the transaction as an asset acquisition as Lince does not constitute a business. The purchase price was allocated to the assets acquired and liabilities assumed based on their relative fair values on the closing date. The purchase price allocation is a result of management's best estimates and assumption after taking into account all relevant information available.

The final purchase price has been determined and allocated as follows:

Purchase price:		
Cash paid	$	1,500,000
	$	1,500,000
Purchase price allocation:		
Cash	$	23,650
Prepaid expenses		5,107
Chilean IVA receivable		52,302
Property, plant and equipment		30,911
Exploration and evaluation asset (Fenix)		4,455,896
Accounts payable		(37,774)
Mine closure obligation		(3,030,092)
Net assets acquired	$	1,500,000

7. Short Term Investments

As at March 31, 2021, the Company had $46,000 (December 31, 2020 – $831,415) invested in guaranteed investment certificates ("GIC") at a major Canadian financial institution. $46,000 is invested in a GIC that accrues interest at 0.2% and expires on December 19, 2021. Interest is accrued during the GIC term and is recorded in interest receivable.

(Expressed in United States dollars, unless otherwise stated)

8. Input Taxes Recoverable

Input taxes recoverable consist of the following:

	March 31, 2021	December 31, 2020
Canadian GST/HST receivable	$ 17,880	$ 6,452
Current input taxes recoverable	$ 17,880	$ 6,452
Peruvian IGV receivable	$ 333,725	$ 337,990
Chilean IVA receivable	8,942,446	8,848,023
Long term input taxes recoverable	$ 9,276,171	$ 9,186,013

The Peruvian Impuesto General a las Ventas ("IGV") receivable consists of input taxes recoverable for expenses incurred in Peru for the Fenix Gold Project.

The Chilean Impuesto al Valor Agregado ("IVA") relates to the Fenix Gold Project. The actual timing of receipt is uncertain as IVA is typically refundable only upon commercial operations; IVA receivable has therefore been classified as a non-current asset.

9. Exploration and Evaluation Assets

	Fenix Gold Project Chile	Anocarire Gold Project Chile	Total
Balance, December 31, 2019	$ 45,002,756	$ 3,994,195	$ 48,996,951

<u>Fenix Gold Project (Chile)</u>

On July 24, 2018, the Company acquired the Fenix Gold Project. Evaluation related costs were capitalized to the asset from the date of acquisition by Rio2. Additions to the Fenix Gold Project include drilling, technical consultant fees, equipment rentals, the acquisition of Lince and the Asset Retirement for Lince (note 6).

(Expressed in United States dollars, unless otherwise stated)

9. Exploration and Evaluation Assets (continued)

Anocarire Project (Chile)

On July 24, 2018, the Company acquired the Anocarire Gold Project. Upon acquisition, the value of $6,317,160 was assigned to Anocarire based on the $4.8 million option payment that may be paid to Rio2 by Andex Minerals, a company controlled by a former director of Atacama Pacific. During the year ended December 31, 2018, a payment of $200,000 was received. During the year ended December 31, 2019, a payment of $600,000 was received. During the year ended December 31, 2020, a payment of $300,000 was received.

On December 14, 2020, the option payment was revised so that Andex Minerals may pay Rio2 $5 million by December 31, 2021.

Payments under this option payment are being recorded as a reduction of the exploration and evaluation asset.

10. Asset Retirement Obligation

The asset retirement obligation comprises:

		March 31, 2021		December 31, 2020
Opening balance	$	3,722,041	$	-
Balance acquired (note 6)		-		3,352,330
Accretion expense		40,798		-
Effect of exchange rate		(105,948)		369,711
	$	3,656,891	$	3,722,041

In 2018, the reclamation and closure plan for Lince was submitted to the Chilean Government. The undiscounted obligation is 116,531 Chilean Unidad de Fomento (UF), which translates to $6,061,567. The majority of the work will be done in 2025 - 2026. The credit adjusted risk free rate is 0.48%, based on the Chilean Government 1 year bond rate.

11. Capital Stock

a. Share capital

The Company's authorized share capital consists of an unlimited number of common shares of which 199,593,604 were issued and outstanding as at March 31, 2021 (190,706,348 – December 31, 2020).

(Expressed in United States dollars, unless otherwise stated)

11. Capital Stock (continued)

b. Share-based payments

The Company's stock option plan and its share incentive plan authorizes the directors to grant stock options and Restricted Share Units ("RSUs") to executive officers, directors, employees and consultants enabling them to acquire from treasury up to that number of shares equal to 10 per cent of the issued and outstanding common shares of the Company. The shareholders of the Company last approved the Stock Option Plan at a meeting held on June 25, 2020.

The number and exercise price of options granted is determined by the directors, subject to regulatory approval if required. Options may be granted for a maximum term of 10 years and vest as determined by the board of directors.

Stock option transactions are summarized as follows:

	Number of options	Weighted Average Exercise Price (C$/option)	
Outstanding, December 31, 2019	13,833,074	C$[1]	0.82
Issued	3,850,000		0.65

15,036,433	3.10	C$ 0.81	6,941,976	C$ 1.05

Each option entitles the holder to purchase one Common Share for a period of five years from the date of grant. The options granted by Rio2 vest 1/3 equally over a three-year period. The options assumed from Atacama Pacific, if not already vested, vested in full on July 24, 2018. The grant of the RSUs and options are subject to the terms of the Share Incentive Plan and the Stock Option Plan respectively, and final regulatory approval and if applicable, shareholder approval.

RSU transactions are summarized as follows:

	Number of RSUs
Outstanding, December 31, 2019	312,237
Issued	400,000
Vested and settled in common shares	(212,237)
Cancelled	-
Outstanding, December 31, 2020	500,000
Issued	-
Vested and settled in common shares	-
Cancelled	-
Outstanding, March 31, 2021	500,000
Vested, March 31, 2021	-

The RSUs, which original terms saw a vesting schedule of 1/3 equally over a three-year period, include a time-based and a performance-based component with a multiplier as determined by the Company's Board of Directors, and entitle the holder to an amount computed by the value of a notional number of Common Shares designated in the award. The RSUs that vested and were settled in common shares during the year ended December 31, 2020 were awarded a multiplier of 2 by the Company's Board of Directors.

The RSUs may be settled in equity instruments, or cash, at the sole discretion of the Company. The choice to settle in equity instruments does not have any commercial substance and the Company does not have a past practise of settling in cash.

(Expressed in United States dollars, unless otherwise stated)

11. Capital Stock (continued)

On April 23, 2020, 162,237 RSUs were settled via the issuance of common shares of the Company. A multiplier of 2 was awarded, therefore, a total of 324,474 common shares of the Company were issued on April 23, 2020.

On September 11, 2020, 50,000 RSUs were settled via the issuance of common shares of the Company. A multiplier of 2 was awarded, therefore, a total of 100,000 common shares of the Company were issued on September 11, 2020.

On December 31, 2020, 400,000 RSUs were granted to Executive Officers of the Company. The RSUs will vest one-third on June 30, 2021, one-third on December 31, 2021, one-sixth on December 31, 2022, and one-sixth on December 31, 2023

c. Warrants

Warrants outstanding as of March 31, 2021 were:

Expiry dates	Number of warrants	Conversion price
August 13, 2022	28,274,450	C$0.50

Movements in the number of warrants outstanding and their related weighted average exercise prices are as follows:

	Number of warrants	Weighted average exercise price
Outstanding, December 31, 2019	46,467,391	C$ 0.55
Exercised	(7,578,919)	0.59
Outstanding, December 31, 2020	38,888,472	C$ 0.54
Exercised	(8,887,256)	0.65
Expired	(1,726,766)	C$ 0.50
Outstanding, March 31, 2021	28,274,450	C$ 0.50

d. Reserves

Reserves recognizes share-based compensation expense until such time that the stock options and RSUs are exercised, at which time the corresponding amount will be transferred to share capital.

(Expressed in United States dollars, unless otherwise stated)

12. Related Party Transactions

Key management consists of the Board of Directors and senior management. Senior management is defined as the President & CEO, and Executive Vice Presidents. Key management compensation for the three months ended March 31, 2021 and 2020 was as follows:

	Three months ended March 30, 2021	Three months ended March 31, 2020
Senior management employment costs	$ 276,223	$ 252,497
Directors fees	41,864	41,788
Share-based compensation	297,990	294,605
	$ 616,077	$ 588,890

In addition to the compensation for directors and officers, the Company incurred management fees during the three months ended March 31, 2021 of $nil (three months ended March 31, 2020 - $75,000) from a company owned by a director of Rio2.

13. Segmented Information

The Company's business consists of a single reportable segment being mineral exploration and development.

During the three months ended March 31, 2021 and 2020, the Company had three operating segments in three geographic areas: the corporate office in Canada, development of the Fenix Gold Project in Chile, the support of the Fenix Gold Project in Peru. Segmented disclosure of the Company's assets and liabilities is as follows:

				March 31, 2021
